## PROFESSIONAL SUMMARY

Full Stack Web Developer specialized in React, Next.js, and Node.js with a strong focus on building scalable applications and crafting modern, minimal user interfaces. Experienced in bridging robust backend RESTful architectures with high-performance frontend designs. Proven ability to optimize data pipelines, integrate AI-driven features (like RAG and Google MediaPipe), and deliver clean, impactful digital solutions.

## TECHNICAL SKILLS

- **Frontend:** React, Next.js, JavaScript, TypeScript, HTML5, CSS3, Tailwind CSS, ShadCN
- **Backend:** Node.js, Express.js, Python, Java, Spring Boot, RESTful APIs
- **Databases & Tools:** MongoDB, PostgreSQL, MySQL, Firebase, Git, GitHub, Redux, Vite, Vercel

## WORK EXPERIENCE

### Full Stack Developer Intern | Labmentix (Remote)

Feb 2025 – Aug 2025

- Developed and maintained responsive web applications using Next.js and React, improving user experience and site performance by 30%.
- Architected RESTful APIs and integrated backend services via Node.js and Express, reducing data retrieval latency by 25%.
- Optimized database queries and MongoDB schema designs, increasing application data processing speed by 40%.

### Generative AI Intern | IT NetworkZ (Remote)

Dec 2024 – Feb 2025

- Implemented Retrieval-Augmented Generation (RAG) pipelines, enhancing large language model response accuracy by 20%.
- Collaborated across teams to preprocess datasets and optimize model training processes, reducing overall data processing time by 30%.
- Executed comprehensive data cleaning protocols to train models for maximum accuracy and time efficiency.

## PROJECTS

### [\[Link\]](#) Kibun – AI-Powered Music Player | *MERN, Tailwind CSS, MediaPipe, ImageKit*

Full-stack application integrating Google MediaPipe for real-time facial recognition to dynamically generate mood-based playlists. Complex React state management for seamless audio-lyric synchronization and built a secure Node.js backend to handle custom multimedia uploads and user authentication.

### [\[Link\]](#) Layr – Browser-Based UI Design Tool | *Vanilla JS, HTML, CSS, Local Storage*

Engineered a zero-dependency Vanilla JS wireframing tool for designing modern, minimal UIs directly in the browser. Built custom real-time drag-and-drop mechanics and integrated local storage for seamless, data-loss-free session recovery.

### [\[Link\]](#) Forumly - Modern Forum Platform | *Next.js 15, ShadCN, Sanity CMS, Clerk*

Engineered a Reddit-inspired platform featuring a modern, minimal user interface for seamless community creation and dynamic discussions. Optimized the application architecture to achieve sub-2 second page load times and highly ranked SEO metrics.

## EDUCATION

- **Bachelor of Science** | Shri Mathuradas Mohota College of Science
- **High School Diploma** | Kamla Nehru Mahavidyalaya

## CERTIFICATIONS

- Full Stack Web Development – Udemy (Oct 2025)
- Software Engineer Intern Certificate – HackerRank (Dec 2024)
